EDUCATION

Pune Vidyarthi Griha's College Of Engineering And Technology Pune **2022 – 2026**
B.E - Computer Science — CGPA: 8.33 *Pune, Maharashtra*

PROJECTS

Digital Menu Card — React, Bootstrap, JavaScript, APIs, SQL **Internship Project – 2024**
  – Developed a responsive digital restaurant menu using React and Bootstrap.
  – Integrated RESTful APIs and SQL database for dynamic item rendering and backend management.
  – Improved user interaction with clean UI/UX design principles.

Smart Crop Recommendation System — Python, Streamlit, Machine Learning **Final year project -2025**
  – Built a web tool recommending optimal crops based on soil parameters, weather, and economic trends.
  – Integrated OpenWeather API and user inputs to dynamically suggest high-yield and profitable crops.
  – Trained ML models on agricultural datasets considering pH, rainfall, temperature, and cost.

Sentiment Analysis of Hotel Reviews — Python, Streamlit, Machine Learning **2025**
  – Developed a sentiment analysis tool to classify reviews based on sentiment polarity.
  – Implemented aspect-based sentiment analysis (food, service, ambience, value) using keyword extraction and ML classification.

Health Monitoring Web Application — HTML, CSS, JavaScript **Second Year Project – 2023**
  – Developed a simple Health Monitoring web application with HTML, CSS, and JavaScript to collect user inputs, provide personalized health tips, and implement basic form validation with a clean, user-friendly interface.

TECHNICAL SKILLS

Languages: C,C++,Python, Java

Web Development / Frameworks: HTML, CSS, JavaScript, React.js, Bootstrap, Node.js, Express.js, REST API, Database

Data Analytics: Pandas, NumPy, Matplotlib, Seaborn

DSA / Problem Solving: Practiced and solved 100+ coding problems on GeeksforGeeks

INTERNSHIP EXPERIENCE

Web Development Intern – Humming Byte Technology Pvt. Ltd. **Aug 2024 – Feb 2025**
Full-Stack Developer — React.js, Node.js, Express.js, SQL, REST API

  – Developed and maintained a **Digital Menu Card** web application handling both frontend and backend functionality.
  – Implemented responsive UI using React.js and Bootstrap for an enhanced user experience.
  – Built backend services using Node.js and Express.js, integrating RESTful APIs for dynamic data handling.
  – Managed database operations using SQL, ensuring data consistency and efficient queries.
  – Collaborated with team members to implement modular, reusable components and clean coding practices.

CERTIFICATIONS

ISO Certified – Programming in C, C++, Java, Python and Data Structures and Algorithms (DSA)

ISO Certified – Full-Stack Development

LEADERSHIP & EXTRACURRICULAR

  – Team Member, Treasury and Sponsorship – Computer Club (ACES), PVGCOET
  – Collaborated with team to organize technical and non-technical events and assisted in securing sponsorships and budgeting for college-level workshops.
  – Actively participated in the interdepartmental annual sports events ,Department events and won various technical and non-technical competitions organized by other departments..
