

VEDANT KOKARE

Pune, Maharashtra

kokarevedant579@gmail.com | +91-9322705789 | LinkedIn | Portfolio

PROFILE SUMMARY

Aspiring **Software Development Engineer (SDE)** with 6 months of hands-on experience in backend and full-stack web development. Proficient in **C++, Python, JavaScript, React.js, Node.js, Express.js, and PostgreSQL**, with a strong foundation in **Data Structures & Algorithms**, RESTful APIs, and database-driven applications. Passionate about building scalable software solutions and eager to contribute to real-world engineering teams.

EDUCATION

- Pune Vidyarthi Griha's College of Engineering and Technology (PVGCOET)** Pune, Maharashtra
B.E. in Computer Engineering — CGPA: 8.60 2022 – 2026

TECHNICAL SKILLS

- Core Skills:** Data Structures & Algorithms (Solved 180+ problems on GeeksforGeeks, 102+ on LeetCode), Problem Solving, OOP, Debugging, Basic Unit Testing
- Programming Languages:** C/C++, Python, JavaScript, Java (working knowledge)
- Backend Technologies:** Node.js, Express.js, REST API Development
- Frontend (Hands-on):** HTML, CSS, Bootstrap, JavaScript (ES6), DOM Manipulation, Event Handling, Flexbox, CSS Grid
- Framework Exposure:** React.js
- Databases:** SQL, PostgreSQL
- Tools & Practices:** Git, GitHub, Agile methodology, Postman / Thunder Client, VS Code

INTERNSHIP EXPERIENCE

- Software Developer Intern — Humming Byte Technology Pvt. Ltd.**
Backend / Full-Stack Intern — Aug 2024 – Feb 2025
 - Developed and integrated RESTful APIs using Node.js, Express.js, and PostgreSQL for a restaurant management application.
 - Implemented backend business logic, database operations, and API endpoints to support application functionality.
 - Performed API testing, debugging, and validation using Postman and Thunder Client to ensure reliable backend performance.
 - Collaborated with developers in an Agile environment through sprint discussions, code reviews, and feature implementation.
 - Identified and resolved application bugs while improving code quality, readability, and maintainability.
 - Documented API workflows and assisted in integrating backend services with the React frontend.
- Smart Restaurant Management System — React.js, Node.js, Express.js, PostgreSQL** GitHub
Full Stack Web Application
 - Developed a full-stack restaurant management system using React.js, Node.js, Express.js, and PostgreSQL with RESTful API integration.
 - Implemented menu management with CRUD operations, category-based filtering, search functionality, image support, and dynamic menu rendering.
 - Built a shopping cart and ordering workflow with quantity management, cart total calculation, customer/table details, and order persistence.
 - Designed relational PostgreSQL tables for menu items, categories, quantities, orders, and order items, using foreign keys and database transactions for reliable order processing.
 - Implemented backend validation to calculate order totals using database-stored menu prices and tested REST APIs using Postman.
- Smart Crop Recommendation System — Python, Streamlit, Machine Learning**
 - Developed an ML-powered decision support system recommending the top three suitable crops using agricultural and market data.
 - Considered soil characteristics, weather conditions, water availability, cultivation budget, historical mandi prices, and seed demand for crop selection.
 - Implemented the Prophet time-series forecasting model to predict agricultural market trends up to six months ahead.
 - Built an interactive Streamlit interface enabling farmers to make data-driven crop planning decisions.
- Personal Portfolio Website — HTML, CSS, JavaScript, GitHub Pages**
 - Designed and deployed a responsive portfolio website showcasing projects, internship experience, technical skills, and resume.
 - Developed interactive UI components using HTML, CSS, and JavaScript and deployed the website using GitHub Pages.

LEADERSHIP & EXTRACURRICULAR

- **Treasury & Sponsorship Member — ACES Club, PVGCOET**

Assisted in organizing departmental and inter-college technical events by coordinating sponsorships, managing budgets, and collaborating with event teams to ensure successful execution.

CERTIFICATIONS

- Full Stack Web Development — Coding Seekho
- Programming Certifications in C, C++, Java, Python, and Data Structures & Algorithms — Coding Seekho
